

Tips for Getting the Best Deal from Skeeter Boat Center

At the Skeeter Boat Center, we want the purchase of your next fishing boat to be easy and fun! We understand that getting the best possible deal is just as important as choosing the right boat for the way you fish. Here are 3 tips on how to get the best deal on a boat purchased from Skeeter Boat Center:

1. Learn about Skeeter's money saving programs.

You don't have to wait until Boat show season to get the best deal anymore. Rebates and extended warranty programs are available on new Skeeters throughout the year. And you can save extra money on dealer demos, Team Skeeter deals, Guide Staff discounts, and special purchases from Skeeter like factory demos and promotional boats. We'll find the program that's best for you!

2. Save on sales tax with our courtesy delivery program.

Talk to us before you put your boat up for sale. *You can sell* your own boat for market price, *we can help you sell* your boat for market price for a very small fee, or we can take your boat

in on trade. Just make sure you don't pay more sales tax than necessary. Ask about our courtesy delivery program.

3. Take advantage of our Best Price Guarantee.

At Skeeter Boat Center we have thoroughly researched the internet to make sure that our prices are extremely competitive. That's why we offer a Best Price Guarantee! If you would happen to encounter a lower price on a comparable Skeeter boat, please let us know. Your feedback is one way we maintain very competitive pricing.

We want you to be able to buy your next boat:

- For the lowest possible price
- With the best outboard warranty
- While getting the most possible value for your current boat
- While paying the least amount of sales tax

The best time for you to talk to us is 6-12 months before you are ready to change boats. So if you're starting to think about buying a new or used boat...give us a call. Together we'll make sure you get the best deal! To learn more, please contact Gregg Kizewski at 715.833.0060 or Gregg@SkeeterBoatCenter.com.
